Summary of Fisheries Studies / Reports:

McIntyre, E. 1983 **Assessment of Largemouth Bass Transfers** made in the Parry Sound District in 1978 & 1979

- Assessment indicates transfer was a failure as no new recruits and only one original planted fish was caught.
- Winterkill may be the reason for lack of success. Ph was also recorded to be 4.7.

Thurston, L. 1978 **Largemouth Bass Introductions** made in the Parry Sound District, 1976-78

- A transfer of 83 adult largemouth bass was made by helicopter from Martin Lake with the intent to create a fishery.

MNR 1978 Note to File: **Oxygen Test** March 9, 1978

- Oxygen levels 6.0 ppm at the surface, 3.4 ppm at 6 feet and 0 ppm ant 9 feet.
